$2,500 Educational Scholarship for PM Students
The Chapter will again award a $2,500 Educational Scholarship to a deserving student who shows high interest in project management as related to their college major in fields such as Business, Management, Operations Management, Information Technology, Engineering, Construction, Manufacturing, Architecture etc.
The odds of being awarded the scholarship are high since it is limited to students from the local Greater Cincinnati area or students from outside Greater Cincinnati attending a College in the area. For example, a student whose home is in Newport, KY attending University of Michigan or a student at Northern Kentucky University whose home is in Ann Arbor, Michigan.
