

Environmental Engineering Professor Dionysios Dionysiou was Admitted as a Fellow of the Royal Society of Chemistry on 7th April 2017

Dr. Dionysios Dionysiou is a renowned expert in the area of advanced oxidation processes. He is the author or co-author of over 325 refereed journal publications, over 86 conference proceedings, 32 book chapter publications, 26 editorials, and more than 600 presentations.

These impressive numbers, along with many other attributes, made him a prime candidate for selection as a Fellow of the Royal Society of Chemistry (FRSC) and he was admitted to this highly prestigious group in April of this year. Achieving Fellow status signifies to the wider scientific community a high level of accomplishment as a professional chemist. In addition, nominees must have made outstanding and distinguished contributions to their field of science, as well as adhere to an established set of high standards of ethical and professional behavior.

Congratulations on this high honor, Dr. Dionysiou!!
