Learning Opportunities for Graduate Students Offered by CET&L

Dr. Melinda Rhodes-DiSalvo,
Director,
Center for the Enhancement of Teaching & Learning (CET&L),
University of Cincinnati

Date: January 16, 2015
Time: 12:20 - 1:15 pm
Venue: Baldwin 749

ABSTRACT:
This seminar session will introduce students to the role of teaching and learning centers at research universities, specifically focusing on the University of Cincinnati’s Center for the Enhancement of Teaching & Learning and the Center for Excellence in eLearning. A review of innovative pedagogical approaches promoted in the STEM disciplines and research supporting the effectiveness of their implementation will be followed by a review of short workshops, daylong sessions and course design institutes offered this spring. Other topics may include the role of formative and summative feedback in continuous course improvement, as well as instructional design and technology support.

BIO:
As director of the Center for the Enhancement of Teaching and Learning, Dr. Melinda Rhodes-DiSalvo has the privilege of working with a team dedicated to supporting and improving the educational experience and academic programs at UC.

Dr. Rhodes-DiSalvo leads development and delivery of course design institutes, daylong seminars and short workshops on pedagogy and best practices, New Faculty Orientation and a mentorship program, among other programming. She is dedicated to supporting UC faculty’s work in the Scholarship of Teaching and Learning.

As a co-chair of the UC eLearning Committee and member of the UC IT Council, Rhodes-DiSalvo is able to support the university-wide strategic plan for IT, efforts in professional development and training, and tracking emerging technologies and national trends.
