Department BAs,

Can you please forward the email below to other staff in your department that would find the information useful?

Thank you,

Katie

Good morning,

The college is revising its graduate assistant stipend minimums.

This applies to CEAS funded Graduate Assistants ONLY.

Staying the same for AY17/18
All CEAS funded GAs (grant and non-grant funded) will have $3,027 per semester credited to their account. Grants and contracts will continue to pay $3,027 in tuition and certain fees for GAs, if allowable by sponsor. The department will be responsible for paying the $3,027 for non-grant or contract funded students. The college will subsidize a portion of these costs. Students OOP will be approximately $285 per semester (based on current tuition & fee rates AND if they have a GSHI award).

If tuition and fees remain the same, perhaps the $3027 and $285 will remain the same. Not sure what we should say about that. I am copying Tim and Julie.

Also international students have an additional OOP of $125 per semester for UC International fee effective Fall 2017.

New for FY18

* Beginning July 1, 2017, all CEAS funded GAs (grant and non-grant funded) will be paid a minimum of $875 bi-weekly (up from $850).

- PIs with grant-funded students will need to re-budget his/her grant to accommodate the minimum pay. For the majority of contracts in year two or three, a two percent annual increase has already been budgeted. Therefore the impact of this stipend increase should be minimal on your budget.

* Beginning July 1, 2017, all proposals are to be budgeted at $900 bi-weekly to ensure that budget is available for when the FY19 increase takes place.

New for FY19

* Beginning July 1, 2018, all CEAS funded GAs (grant and non-grant funded) will increase to a minimum of $900 bi-weekly.

Please let me know if you have any questions.
