sUAS USES IN LAW ENFORCEMENT
PRESENTERS

JAMES (DOUG) DANIELS
Senior Law Enforcement Training Officer
Ohio Peace Officer Training Academy

JAMES LAWSON
Director, Operations
Ohio/Indiana UAS Center
HOW CAN AN sUAS ASSIST LAW ENFORCEMENT?

There are many ways. Law Enforcement is only held back if we don’t use our imagination. Here are some examples of use:

- Crime Scene Investigations
- Traffic Crash Investigations and Reconstruction
- 360 Degree Incident Size-Up
- Search for a missing person/child
• Search for a fugitive or escaped convict
• Surveillance
• Marijuana Eradication
• Pre-Incident planning with aerial imagery
• Monitoring large gatherings of people (festivals, sporting events, protest, riots, etc.)
• Assist with the execution of Search Warrants
- S.W.A.T. operations
- Active shooter incidents (searching for the shooter or shooters, injured persons, vantage points, quickest route, etc.)
- Perimeter security
- Search & Rescue
- Environmental Crimes
- Scene illumination with aerial search light
- Post incident analysis and training
- Various types of agency training
SOME EXAMPLES
TRAFFIC CRASH INVESTIGATION
MARKING SYSTEM USED IN DETERMINING CRUSH DEPTH
FORT COLLINS, COLORADO POLICE DEPARTMENT TRAFFIC CRASH INVESTIGATION
ATLANTA P.D. USING AN sUAS FOR MONITORING PROTESTERS (2014)
COLUMBUS POLICE DEPARTMENT
BIKE PATROL CROWD CONTROL TRAINING: TUNNEL
DJI INSPIRE 1 WITH A DJI/FLIR XT THERMAL IMAGING CAMERA
PEDESTRIAN BY ROAD (DJI/FLIR XT THERMAL IMAGING CAMERA)
ABS/NO ABS BRAKING TESTS WITH TRIPLE TRAILERS FROM YRC
