SPONSORSHIP PACKET

APRIL 7, 2026

The CEAS EXPO is for senior engineering students to showcase all they have learned through their undergraduate classes and co-op experiences the past five years. These students have worked for the past year developing their final capstone project and are excited to present it to you and the professional community.

As a sponsor, you will not only be able to network with these accomplished students, but the underclassmen who will soon be in their shoes too. You will have the opportunity to judge a variety of capstone projects related to your industry. We will provide you with a rubric and general judging parameters.

2026 ESTIMATION OF NUMBERS

200 - 250
